Objective

I am looking forward to Trainee or Junior web developer position.

Summary

I am a young web developer possessing the enthusiasm, confidence, drive, flexibility and adaptability necessary to cope with the given workload. I like learning new technologies, developing my skills and gaining new experience. My aim is to find a job that would stimulate both professional and personal growth and help to consolidate the acquired knowledge in practice. I consider myself to be sociable, creative, capable of self-improvement. I like working as a part of a team. I can work under pressure to meet deadlines.
